may hold unless the Goods are incorporated into or are a component part of a finished product produced by the Purchaser.

10.3 If any Goods in which CEM retains title are resold or incorporated into products manufactured or finished using the Goods and resold, the Purchaser shall hold such part of the proceeds of any sale as represents the invoice price of the Goods sold in a separate identifiable bank account as trustee for CEM as beneficial owner and shall pay such amount to CEM immediately on demand.

10.4 If the Purchaser has not paid for Goods when payment falls due, CEM may enter the Purchaser's premises where those Goods are or are reasonably suspected of being situated, without liability for trespass or any resulting damage, and retake possession of those Goods using reasonable force to do so.

## **11. Implied Terms**

All warranties included or implied by statute the common law, equity, trade, custom or usage or otherwise are expressly excluded to the maximum extent permitted by law. 13.2 CEM and the Purchaser shall not be liable for any delay or failure to perform their obligations apart from a failure to pay monies validly owing, if that failure or delay is due to any cause or condition beyond the control of that party.

13.3 If any part of these terms and conditions is or becomes illegal or invalid then the remainder of these conditions shall not be affected.

Where special conditions are specified by CEM in any quotation or other sale document, such special conditions shall apply to these terms and conditions and to the extent that there is any inconsistency between those special conditions and these terms and conditions, the special conditions shall prevail to the extent of the inconsistency.
