

# TITANIUM INTERNATIONAL

## SPECIALTY METAL SUPPLIER

Titanium International is a specialty metal wholesale business and leading Australian importer and supplier of titanium products to the Australian market for over 30 years.

The company is a division of CEM International Pty Ltd, with headquarters located in Melbourne, Australia. Our wide range of products are sourced from long-standing relations and agreements with global suppliers. Products are made available both on a direct shipment basis from overseas and from our extensive range of forms and sizes stocked in our Melbourne service centre.

### TYPICAL PRODUCTS INCLUDE:

- Sheet and plate
- Pre-machined forgings
- Condenser & heat exchanger tube
- Pipe and fittings
- Bar and wire
- Fasteners
- Anodes & cathodes for electro-chlorinators

While titanium supply is our core business, Titanium International is also a significant supplier of other corrosion resistant metal products to Australian industry.

- Zirconium alloys
- Tantalum products
- Super Duplex Pipe and Fittings
- Aluminium / steel transition joint; explosion bonded product for configuring welded joints between aluminium and steel, particularly in shipbuilding
- Explosion clad plate for vessels, pipes and tube plates
- Roll clad plate for vessels and pipes
- Nickel based alloys
